Terminal Disclaimer

The terminal disclaimer filed on 10/2/2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of Patent 7,289,632 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Arguments

Applicant's arguments filed on 10/2/2009, with respect to the rejection(s) of claim(s) 1 – 18, 20 – 24, 26 – 30 and 32 under prior art rejection have been fully considered and are persuasive. However, the Applicant has not amended the claims in terms the arguments presents, in particular, the functionalities of the third communication device (the proxy server – **a third communication device – completes the push [of the received media]** by routing the media to the second communication device which is kept anonymous with respect to the first device", has not been explicitly stated in each of the independent claims 1, 5, 9, 14, 20 or 26, nor it has been claimed in the newly presented independent claims 33, 37 or 41. Therefore, Examiner maintains the previous rejection and requests amending these independent claims to include "routing said received media, **by the third communication device** to said second communication device, said IP address of said second communication device remaining anonymous to said first communication device." (**emphasis added**).

Agreeing with the Applicant, newly presented claims 33 – 45 similar in many respects to the previously rejected claims 1, 5 and 9, are rejected on the same rationale. Examiner requests amending the independent with the above suggested allowable subject matter (the proxy server – **a third communication device – completes the push [of the received media]** by routing the media to the second communication device which is kept anonymous with respect to the first device).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
